Voss Artesian Water

- *Luxury in a bottle...With a classic cylindrical bottle, Voss artesian water is the latest must-have in the growing water market.*
- **Voss Artesian Water** from Norway comes from an aquifer in the untouched nature of Southern Norway, protected from pollutants by layers of rock and ice, producing pure water like no other.
- Voss water is collected from a confined, underground aquifer – a water bearing, impermeable layer of rock, sand or ice. When tapped into, the aquifer is pressurized enough to allow the water to rise up naturally through the ground without the use of mechanical pumps.
- Naturally pure water, free of sodium, low in minerals and incomparable taste. Available in two sizes: 16.9oz and 1Liter.

Hachez Chocolates

- Imported from Germany, Hachez Chocolates, are one of the finest premium chocolates available in the US market. These products are not sold mass-market, which makes it a destination point.
- Hachez's Dark Chocolate products have a pure cocoa-intense taste that is noticeably smooth and has a mild finish on the palate, as compared to other chocolates in the bitter segment
- This is a result of the premium process of chocolate making: Starting with the highest quality beans (selected out of only 5% of the world's harvest), rolled double fine to a granular diameter of 0.0010 to 0.0014 mm, conched up to 72 hours to guarantee smoothness, and made with the finest ingredients (bourbon vanilla) and hand finished.
- The line of Hachez dark chocolates include: **88% Premier Cru, Coco D'Arriba: 77% Classic Bar, 77% Orange Bar, 77% Strawberry Pepper Bar, 77% Salted Peanut, and NEW: 77% Mango w/Chili Pepper, and 77% Blackberry/Raspberry.**
